CONTENTS OF VOLUME 26

Numbers 1–2 (February/March 2002)

Editorial	1	*D Pitt*
Papers	3	Can the US transition to digital TV be fixed? Some lessons from two European Union cases *H Galperin*
	17	Product cycle theory and telecommunications industry—foreign direct investment, government policy, and indigenous manufacturing in China *Z A Tan*
	31	Information–communications technologies (ICT) and transport: does knowledge underpin policy? *G Cohen, I Salomon and P Nijkamp*
	53	Pricing network elements when costs are changing *D M Mandy*
	69	The rise of the Australian Telecommunications Industry Ombudsman *A Stuhmcke*
	87	A new view of telecommunications economics *J Alleman*
Book review	93	The politics of telecommunications: national institutions, convergence and change *M Thatcher (Ed)* (N Levine)

Numbers 3–4 (April/May 2002)

Editorial	97	Around the cradle of the wireless revolution: the emergence and evolution of cellular telephony *K Lyytinen and J L King*
Discussion	101	A commentary on standardization practices: lessons from the NMT and GSM mobile telephone standards histories *T Haug*
Papers	109	Standardisation in the construction of a large technological system—the case of the Nordic mobile telephone system *J Lehenkari and R Miettinen*
	129	Technological systems and competent procurers—the transformation of Nokia and the Finnish telecom industry revisited? *C Palmberg*
	149	Achieving high momentum in the evolution of wireless infrastructures: the battle over the 1G solutions *K Lyytinen and V V Fomin*

	171	Intellectual property rights and standardization: the case of GSM *R Bekkers, B Verspagen and J Smits*
	189	Ma Bell's orphan: US cellular telephony, 1947–1996 *J L King and J West*
	205	De-facto standardization through alliances—lessons from Bluetooth *T Keil*
Book review	215	GSM and UMTS: the creation of global mobile communication *F Hillebrand (Ed)* (N Levine)

Numbers 5–6 (June/July 2002)

Editorial	219	Corporate control and industry structure in global communications: an introduction *L Waverman and F Trillas*
Papers	225	Corporate governance in the deregulated telecommunications industry: lessons from the airline industry *K Lehn*
	243	Privatization and the sources of performance improvement in the global telecommunications industry *B Bortolotti, J D'Souza, M Fantini and W L Megginson*
	269	Mergers, acquisitions and control of telecommunications firms in Europe *F Trillas*
	287	Capital subsidies, profit maximization, and acquisitions by partially privatized telecommunications carriers *J G Sidak*
	295	"Open access:" the ideal and the real *G Bittlingmayer and T W Hazlett*
	311	Network effects and merger analysis: instant messaging and the AOL–Time Warner case *G Faulhaber*
	335	From sector-specific regulation to antitrust law for US telecommunications: the prospects for transition *H A Shelanski*
Book review	357	Competition law and regulation in European telecommunications *P Larouche* (S K Schmidt)

Numbers 7–8 (August/September 2002)

Editorial	361	*D Pitt*
Papers	363	Spatial dimensions of Internet activity *T H Grubesic*
	389	Fixed and fluid: stability and change in the geography of the Internet *S P Gorman and E J Malecki*

	415	The competitive effects of resale versus facility-based entry: evidence from the long-distance market *D L Kaserman and M Ulrich*
	425	Revenge of the Bellheads: how the Netheads lost control of the Internet *R Frieden*
Book review	445	Communications policy in transition *B M Compaine and S M Greenstein (Eds)* S Simpson

Numbers 9–10 (October/November 2002)

Editorial	447	*F Li*
Papers	451	Deconstruction of the telecommunications industry: from value chains to value networks *F Li and J Whalley*
	473	Mapping the evolving telecoms industry: the uses and shortcomings of the layer model *M Fransman*
	485	The European market for mobile data: evolving value chains and industry structures *C F Maitland, J M Bauer and R Westerveld*
	505	The evolving mobile wireless value chain and market structure *H K Sabat*
	537	Mobile virtual network operators: a strategic transaction cost analysis of preliminary experiences *S Ulset*
	551	A value chain model for mobile data service providers *P Olla and N V Patel*
	573	For whom the bell alternatives toll: demographics of residential facilities-based telecommunications competition in the United States *R D Foreman*
Book review	589	Law and the Internet: a framework for electronic commerce *R Weedon* (L Edwards and C Waelde)

Number 11 (December 2002)

Editorial	593	*D Pitt*
Papers	595	Comparing the operational efficiency of the main European telecommunications organizations: a quantitative analysis *G C Pentzaropoulos and D I Giokas*
	607	'Double marginalization' problems: evidence from the Korean fixed-to-mobile service market *M-C Park and S-W Lee*

623 Can information and communication technologies be pro-poor?
E Forestier, J Grace and C Kenny

Book review 647 Media and globalization: why the state matters Nancy Morris and Silvio Waisbord, Epilogue by Kaarle Nordenstreng, Lanham M.D., Rowman and Littlefield, 2001, pp. 224, Price $25, ISBN 0-7425 1030-1
N Morris and S Waisbord (S N Gupta)
